FINDINGS

2. Based on the information known by or provided to the Department, the following findings are asserted for purposes of this Contract:

- A. Owners and Operators: The owners and operators of the Property include the following:

| | |
|------------------|-----------------|
| John Parrish | Unknown to 1959 |
| Loxcreen Company | 1959 to Present |

- B. Property and Surrounding Areas: The site is bound to the north by Old Dunbar Road with Farm Bureau beyond; to the east by residential properties and woodlands beyond; to the south by woodlands of the Congaree Creek floodplain; and to the west by woodlands of the Savannah Branch floodplain. No indications of recognized environmental conditions (RECs) were identified in connection with

the adjoining properties.

Based on a review of the historical information, the facility opened in 1964 as Loxcreen. Prior use of the Property and surrounding areas appears to have been woodlands, agricultural, and residential. The facility conducted aluminum anodization from 1964 through 1970, and used two industrial wastewater lagoons and two sanitary wastewater lagoons. The industrial wastewater lagoons were closed in 1980; the sanitary wastewater lagoons were closed in 2004. The facility reportedly operated an anodization basin at the current location of the boiler; the area previously identified as the "anodization basin" appears to have been a secondary containment for fuel oil above ground storage tanks (ASTs). The ASTs are no longer present, and fuel oil is no longer used at the facility. The industrial and sanitary wastewater lagoons, the former anodization basin, and the former fuel oil usage at the site are considered RECs.

The two formerly maintained industrial wastewater lagoons along the southwestern portion of the Property were reportedly taken out of service in the 1970s. Aluminum-containing sludge from the bottom of the lagoons was removed, land-applied behind the main facility, and was subsequently disked into the surface soils. The lagoons were subsequently filled with soil and are now grassed. These former lagoons & sludge disposal area are considered a REC.

From a Limited Site Investigation report dated October 18, 2012, arsenic and PAHs (benzo(a)pyrene and benzo(b)fluoranthene) were detected above Residential regional screening levels (RSLs) in soils. The PAH detections may be related to the fuel oil usage associated with the boiler. The reported PAH concentrations were below the industrial RSLs for soils.

Metals (aluminum, iron, lead, manganese) and SVOCs (2-methylnaphthalene, biphenyl, and naphthalene) were detected above the maximum contaminant levels (MCLs) for ground water. The metals detections are likely sourced from the former anodization process, the associated industrial wastewater lagoons and the sludge disposal operations. The SVOCs were detected above MCLs in

well B-4 located at the center of the easternmost former sanitary sewer lagoon. These detections may be related to the fuel oil usage associated with the former boiler.

C. Applicant Identification: M-D Real Estate is a Limited Liability Company with its principal place of business located at 4041 N. Santa Fe, Oklahoma City, Oklahoma. M-D Real Estate affirms that it has the financial resources to conduct the response action pursuant to this Contract.

3. M-D Real Estate certifies it and its members are not a current owner of the Property, or parent, successor or subsidiary of a current or past owner of the Property; is not a Responsible Party for the site, or a parent, successor or subsidiary of a Responsible Party for the site; and has not had any involvement with the Property in the past other than activities performed in anticipation of participation in the Voluntary Cleanup Program. Sediment samples shall be compared to the Ecological Screening Values in EPA Region 4 Ecological Risk Assessment – Supplement to RAGS.

H. Evaluate and control potential impacts to indoor air:

- 1). M-D Real Estate shall evaluate potential impacts to indoor air if the Department determines significant concentrations of volatile organic compounds are present in the subsurface. The Department will use a modified Johnson and Ettinger Model to determine "Significant concentrations" based on representative soil and/or groundwater quality results reflective of the Property. The model will be constrained towards predicting commercial exposures consistent with the building construction on the Property.

- 2). This evaluation shall, unless otherwise agreed to by the Department, consist of collection and analysis of indoor air samples from within the building during two separate sampling events approximately six months apart. One sample shall be collected per every 1000 square feet of building footprint potentially subject to Vapor Intrusion. One sampling event shall be in the winter. Each sampling event shall include collection of indoor air samples for laboratory analysis of all site-related volatile organic constituents. The samples collected for laboratory analysis may use either active or passive collection methods provided the same protocol is used for both sampling events. The method shall be capable of detecting gas concentrations at screening levels indicative of a 10^{-6} risk. The applicable screening concentrations shall be based upon the EPA OSWER "Draft Guidance for Evaluating the Vapor Intrusion to Indoor Air Pathway from Groundwater and Soils" or supplemental EPA guidance.
- 3). The Department may allow M-D Real Estate to implement vapor intrusion control measures in lieu of the above evaluation, or use alternative evaluation methods that, in the Department's sole discretion, offer a similar degree of data usability.
- 4). M-D Real Estate shall submit an addendum to the Work Plan detailing the steps for further study and/or control measures to be implemented if the predicted or measured indoor air concentration exceeds a 10^{-6} risk calculated for occupational exposure (40 hrs/wk, 50 wk/yr, 25 yrs). The Department shall give reasonable consideration of data or other demonstration that shows unacceptable exposures inside the building do not result from the subsurface conditions.

I. Institute reasonable Contamination control measures:

- 1). M-D Real Estate shall stabilize or remove from the Property any Segregated Sources of Contamination that have not yet released all contents to the environment.
 - a). The contents of the Segregated Sources shall be properly reused or disposed of in accordance with regulations.

 - c). Control measures shall be required for Waste Materials and Contamination present in any media on the Property with concentrations in excess of appropriate human-health risk-based exposure standards with plausibly complete routes of exposure.
 - i. M-D Real Estate may request Department approval to conduct a site-specific risk assessment to determine levels of Contamination that are acceptable for the intended use of the Property. The risk assessment shall be conducted in accordance with EPA Risk Assessment Guidance for Superfund. Prior to conducting the risk assessment, M-D Real Estate shall submit for Department approval, an overview of risk assessment assumptions including identification of contaminant exposure routes, the type and duration of possible exposures, the magnitude of exposure, and any data gaps that need to be addressed to complete the risk assessment.
 - ii. Control measures may include encapsulation, barriers, or other methods reasonably expected to limit human exposures to the Contamination. The control measures shall be proposed in a Control Measures Plan to be approved by the Department prior to

implementation, and shall be consistent with the intended future use of the Property.

- iii. Upon completion of any control measures, M-D Real Estate shall provide a Control Measures Report to document satisfactory completion of the corrective measures for Department review and approval prior to obtaining a Certificate of Completion.

B. Monitor and/or abandon the monitoring wells:

- 1). M-D Real Estate shall implement a groundwater-monitoring program if required by the Department. Continued monitoring requirements will be based on the Department's determination of potential adverse effects on nearby receptors, i.e., individuals that are presently or potentially exposed to Contamination.
- 2). The Department will determine the frequency and duration of the monitoring program on a case-specific basis.
- 3). M-D Real Estate shall abandon the monitoring well(s) when the Department determines there are no further needs for wells. The wells shall be abandoned in accordance with R.61-71 of the South Carolina Well Standards.

HEALTH AND SAFETY PLAN

5. M-D Real Estate shall prepare and submit under separate cover from the Work Plan, a Health and Safety Plan consistent with Occupational Safety and Health Administration regulations. The Health and Safety Plan shall be submitted to the Department in the form of one hard copy and one electronic copy of the Health and Safety Plan on compact disk (in .pdf format). M-D Real Estate agrees that the Health and Safety plan is submitted to the Department only for informational purposes. - 3). M-D Real Estate shall submit photographs of the sign(s) and a Property drawing showing the location(s) of the signs. The photographs shall be submitted to the Department within 10 days of erecting the sign.
- 4). M-D Real Estate agrees to revise the sign if the Department determines the sign is inaccurate, not legible, or otherwise ineffectively placed.

- 5). M-D Real Estate shall maintain the sign(s) in legible condition and at visible locations throughout the duration of the Contract period until a Certificate of Completion is issued on the Property.
- 6). The sign(s) may be removed to accommodate building or grading activities; however, M-D Real Estate shall restore the sign within two (2) days to its original location, or other publicly accessible location upon notice to the Department.

CONTRACT OBLIGATIONS AND PROTECTIONS INURE

15. The terms, conditions, obligations and protections of this Contract apply to and inure to the benefit of the Department, M-D Real Estate, and its Beneficiaries as set forth below. The following stipulations apply to ensure the transition of all

obligations and protections to successive Beneficiaries for any portion of the Property:

- A. M-D Real Estate or its Beneficiaries shall provide a copy of this Contract and applicable Appendices to any subsequent Beneficiary. Transmittal of the Contract copy may be via any commonly accepted mechanism.
- B. If the Certificate of Completion has not been issued, M-D Real Estate or its Beneficiaries shall request approval from the Department prior to transferring the obligations and protections of this Contract to a new person or entity. The Department shall not unreasonably withhold its approval upon receipt of a Non-Responsible Party Application for Voluntary Cleanup Contract documenting that the new person or entity:
 - 1). Is not a Responsible Party for the Site;
 - 2). Has sufficient resources to complete the activities of this Contract;
 - 3). Will not use the Property for activities that are inconsistent with the terms and conditions of this Contract,

- C. If the Certificate of Completion has been issued and the portion of the Property is subject to a Declaration or other ongoing obligation pursuant to this Contract, M-D Real Estate or its Beneficiaries shall provide written notification to the Department identifying the new individual or entity within thirty days after the effective date of the ownership change or other possessory transfer of the Property.
 - 1). The notification shall include a signed statement from the new individual or entity that its use of the Property will remain consistent with the terms of the

Contract and the Declaration, and that it will assume the ongoing obligations and protections of this Contract.

- 2). This requirement is waived for an individual or entity acquiring a portion of the Property for individual residential or commercial use provided the Declaration is noted on the master deed for the planned development, and the Department has approved the procedure for a single point of contact responsible for documenting current land use and compliance with the Covenant.

CONTRACT TERMINATION

16. M-D Real Estate, its Beneficiaries, and the Department each reserve the right to unilaterally terminate this Contract by giving thirty days advance written notice to the other party. Termination shall be subject to the following:

A. The Department may not terminate this Contract without cause and before termination, shall provide M-D Real Estate or its Beneficiaries an opportunity to correct the cause(s) for termination, which may include, but is not limited to, the following:

- 1). Failure to complete the terms and conditions of this Contract;
- 2). Change in M-D Real Estate's or its Beneficiaries' business activities on the Property or use of the Property that are inconsistent with the terms and conditions of this Contract;

- B. Should M-D Real Estate or its Beneficiaries elect to terminate, that party shall certify to the Department's satisfaction that any environmental or physical hazards caused or contributed by M-D Real Estate or its Beneficiaries have been stabilized or mitigated such that the Property does not pose hazards to human health or the environment.
- C. Termination of this Contract by any party does not waive the Department's authority to require response action under any applicable state or federal law.
- D. Termination of this Contract by any party does not end the obligations of M-D Real Estate or its Beneficiaries to pay costs incurred by the Department pursuant to this Contract. Payment for such costs shall become immediately due.
- E. Upon termination, the protections provided under this Contract shall be null and void as to any party who participated in actions giving rise to termination of the Contract. Revocation of protections shall also apply to that party's lenders, parents, subsidiaries, , and successors, including lessees, heirs, devisees, and other parties taking an interest in the Property through that party who participated in actions giving rise to termination of the contract. The protections will continue for any party who has received protections through a Certificate of Completion for

this Contract, and who did not participate in the actions giving rise to the termination.

C. These Protections and Benefits do not apply to any Contamination, releases, and consequences caused or contributed by M-D Real Estate or its Beneficiaries. The Department retains all rights under State and Federal laws to compel M-D Real Estate and its Beneficiaries to perform or pay for response activity for any Contamination, releases and consequences caused or contributed by M-D Real Estate or its Beneficiaries.

RESERVATION OF RIGHTS BY THE DEPARTMENT

18. Nothing in this Contract is intended to be, or shall be construed as, a release or covenant not to sue for any claim or cause of action, past or future, that the Department may have against any person, firm, or corporation other than M-D Real Estate and its Beneficiaries. The Department reserves the right to undertake future response actions at the Site and to seek to compel parties, other than M-D Real Estate and its Beneficiaries, to perform or pay for response actions at the Site. Nothing in this Contract shall in any way restrict or limit the nature or scope of response actions that may be taken or be required by the Department in exercising its authority under State and Federal law.

RESERVATION OF RIGHTS BY M-D REAL ESTATE

19. M-D Real Estate retains all rights to assert claims in law or equity against any person, company, or entity with respect to the Property, except as limited elsewhere by this Contract. BURDEN OF PROOF

20. M-D Real Estate and its Beneficiaries shall have the continuing obligation to demonstrate that any newly discovered Contamination is not caused or contributed by M-D Real Estate or its Beneficiaries. M-D Real Estate and its Beneficiaries shall make this demonstration to the Department's satisfaction in accordance with State or Federal Law applicable to such newly discovered Contamination. For purposes of this clause, newly discovered Contamination means finding types of Contamination not previously identified at the Property or substantially higher concentrations of Existing Contamination.

LIMITATION OF CLAIMS BY M-D REAL ESTATE AND ITS BENEFICIARIES

21. In consideration of the protections from the Department under this Contract, M-D Real Estate and its Beneficiaries agree not to assert any claims or causes of action against the Department or to seek other costs, damages, or attorney's fees from the Department arising out of activities undertaken at the Property pursuant to this Contract.
